

**NESTLÉ S.A.**

## Nestlé IR video commentary Feb 2013 Transcript

**Speaker:**

**Roddy Child-Villiers, Head of Investor Relations, Nestlé S.A.**

Hello again, you've seen the full-year results announced on the 14<sup>th</sup> February. We managed to deliver the Nestlé model, we've met our promises and I think it was a good broad-based performance.

Clearly the conference call demonstrated that there are one or two issues that we need to discuss with you, points of clarification, and we are looking forward very much to having the opportunity to do that as we travel around the US and Europe in the coming weeks on our roadshows.

Hopefully we'll see a lot of you on those trips. We're going to be in New York and Boston and Toronto, London, Paris, Zurich. We're going to be at two big events, we're going to be at CAGNY, Chris Johnson will be there talking about the US business and we're going to be at CAGE where Paul Bulcke will be talking about the Group's strategy and about the opportunities we have to drive improved performance going forwards.

If you can't make those events they will be webcast so you can't really escape from us and we're looking forward to seeing you very soon, thank you very much.
