Tackling child labour in our cocoa supply chain

Child labour is a global problem.

- 168 million children are involved in child labour
- 1 in 10 children work
- 75 million are between 5 and 11 years old

At Nestlé we believe child labour has no place in our supply chain.

The International Cocoa Initiative is our main partner in the system, helping to eliminate child labour at every level.

We're the first cocoa buyer to set up a child labour monitoring and remediation system.
