In my own words…

• The board and management believe in continuity and change
• We act with speed and a sense of urgency
• We know where our strategic sweet spot is
• We “get” the new consumer
• We “get” the opportunities offered by digital transformation
• We “get” the need for efficiency improvements
• We stay true to our purpose and values
• We are poised to deliver substantial value to our shareholders
Nestlé’s strengths

- Volume growth at the top end of the industry
- Strong portfolio with leading positions in growing categories
- Unique global footprint
- Nutrition, Health and Wellness (NHW) strategy, creating value through superior growth and profitability
- Powerful, valuable global brands which consumers trust
- Long track record of aggressively adapting in order to succeed in an evolving marketplace
Areas for improvement

- Accelerate NHW strategy to meet changing consumer demands
- Boost organic sales growth (OG)
- Balance growth with increased cost discipline / margin improvement
- Improve capital efficiency
- Optimize portfolio
- Drive speed and simplicity in our global organization
Nestlé is well positioned to navigate the evolving FMCG industry

Changing consumer tastes / millennials

Digital opportunities / retail disruption

Small business innovators

Radical cost cutting

Stricter regulations

Macro uncertainty
Our strategy

Food and Beverage is core, offers significant NHW opportunity

Key themes  •  Healthy, delicious, convenient products for modern time-constrained lifestyles
  •  Premiumization in developed and emerging markets
  •  Affordable high-quality nutrition in developing countries

Consumer Healthcare as an additional growth platform, consistent with NHW focus

Key themes  •  Cater to the health maintenance OTC needs of aging population
  •  Benefit from increased interest in / spend on prevention and self-medication
  •  Broaden offering in higher growth pharmacy / drug store channel
NHW strategy creates value

Nestlé products with above-average NHW* have:

- **Growth 1.8x** higher than products with below-average NHW
- **Underlying trading operating profit (TOP) 1.5x** higher than products with below-average NHW

---

* NHW dimension measured by % of Net Sales with 60/40 win and Nutritional Foundation ** – Analysis excluding categories which are 100% NHW

** Nutritional Foundation (NF): Nestlé Nutritional Foundation criteria are based on nutrition science and public health dietary recommendations, such as those of the World Health Organization and other global or local authorities. Our products are evaluated against these criteria using the Nestlé Nutritional Profiling System which determines their nutritional value and whether they achieve the NF.

Creating Shared Value (CSV) is our strategy tool to optimize value for shareholders and for society.

Priorities are those areas of greatest intersection between Nestlé business and society:

- **Nutrition**: Products with a nutrition, health and wellness dimension perform better.*
- **Rural development**: Programs for farmers offer commercial differentiation to the consumer.**
- **Water**: Responsible stewardship of water saves costs and secures supplies for our businesses.

*Based on analysis comparing products that are above average on 60/40+ and Nutritional Foundation criteria with those below average.

**Examples include Nespresso AAA, Nescafé Plan, Cocoa Plan.
