Total volume sourced in 2019: 904 KT

**Note:**

As with any traceability efforts, this is a snapshot that reflects our supply chain-mapping efforts over the last year, representing volumes procured in the year leading up to December 2019, which is a mix of self-declaration and paper based verification, and should not be taken as fully exhaustive nor fully accurate as supply chain flows evolve on a daily basis. To the best of our knowledge, the information contained in this list is accurate and reliable as of the date of publication; however, we do not assume any liability whatsoever for the accuracy and completeness of this information. Therefore no rights can be derived from this list.
