**Total volumes sourced in 2019:** 2 000 000 tonnes

#### Notes

As with any traceability efforts, this is a snapshot that reflects our supply chain-mapping efforts over the last years, last updated in December 2019, which is a mix of self-declaration and paper-based verification, and should not be taken as fully exhaustive nor fully accurate as supply chain flows evolve on a daily basis. To the best of our knowledge, the information contained in this list is accurate and reliable as of the date of publication; however, we do not assume any liability whatsoever for the accuracy and completeness of this information. Therefore, no rights can be derived from this list.

The mills' association with Tier 1 suppliers does not indicate ownership of the mills by that Tier 1 supplier. The mill owner is indicated by the "Mill Company Name." The Tier 1 supplier relationship to the mill is through direct or indirect sourcing, except in the cases where the Mill Company Name is the same as the Supplier Name.
