

**Nestlé** Good food, Good life

## Nestlé responsible sourcing Key Performance Indicators (KPIs) 2019

Priority raw materials	Volume (in kilotonnes)	Traceability	Level of traceability	Responsibly sourced	Verified deforestation free
Cereals & grains	4170	36%	Back to cooperative, warehouse or country of origin	32%	N/A**
Cocoa	415	44%	Back to farm	44%	N/A**
Coconut*	41	67%	Back to province	0%	N/A**
Coffee	904	67%	Back to an identified group of farmers	67%	N/A**
Dairy	17 200	91%	Back to farm	86%	N/A**
Fish & seafood	149	87%	Back to vessel of origin (wild fish) and farm of origin (farmed fish), FAO Zone (wild by-products) or country (farmed by-products)	53%	N/A**
Hazelnut	5	84%	Back to farm	69%	N/A**
Meat, poultry & eggs	2120	53%	Back to slaughterhouse	26%	Meat: 67%
Palm oil	455	62%	Back to plantation	79%	60%
Pulp & paper	1000	88%	Back to country of origin (applies to virgin fiber only)	91%	93%
Soya	477	78%	At least back to crush site	75%	76%
Spices	14	50%	Back to farm areas	39%	N/A**
Sugar	2000	82%	Back to country of origin, mill and supply base	66%	71%
Vanilla	1	89%	Back to plantation	99%	N/A**
Vegetables	460	42%	Back to farm	37%	N/A**

All KPIs are as of end of 2019, except the Verified deforestation free KPI, which is end of March 2019.

\*New priority raw material in 2019. Reporting will start in 2021

\*\*As of end of March 2019, 77% of our purchases of key agricultural commodities linked to deforestation (palm oil, pulp and paper, meat and sugar) were verified as deforestation free. More information is available [here](#)
