

Nestlé's supply chain disclosure

[see our disclosure page on nestle.com](#)

To increase transparency in the food and agriculture sector, Nestlé periodically discloses the result of our supply chain mapping exercise for our 14 key ingredients in scope of our Responsible Sourcing program. Since most of the ingredients and materials we purchase are not segregated, the list of intermediary suppliers represents those that may be present in our supply chain.

Category Palm Oil

Publication Date Apr-26

Disclaimer We aim to share accurate and credible supply chain mapping data. As with any supply chain mapping exercise, this is a snapshot that reflects our mapping efforts during the period described in this disclosure. This snapshot is not a comprehensive depiction of our entire supply chain, rather it corresponds to part of our supply chain for which we have achieved mapping under all five elements below.

To the best of our knowledge, the information contained in this list is reliable as of the date of publication. However, we do not assume any liability whatsoever for the accuracy and completeness of the information. Therefore, no rights can be derived from it.

Any stakeholder who may have any reliable data that is inconsistent with our own is invited to share it with us, so we can analyze it and make any necessary correction to our disclosure.

Scope This disclosure covers volumes purchased by Nestlé between **April 2024 to March 2025**.

The mills association with Tier 1 suppliers does not necessarily indicate ownership of the mills by that Tier 1 supplier (except where the Mill Company Name is the same as the Supplier name). The mill owner is indicated by the "Mill Company Name". The Tier 1 supplier relationship of the mill may be through ownership, direct or indirect sourcing.

The mills associated with companies indicated with an asterisk (*) were declared by our suppliers in 2024. These companies, however, have been issued a no-buy notification so that products from these entities do not enter Nestlé supply chain. The above reference does not constitute an accusation of legal wrongdoing. We are working with our suppliers to remove these mills from our supply chain unless appropriate remediation plans have been agreed on and are being implemented.

In addition, we continue to monitor open grievances.
