

Nestlé's supply chain disclosure

[see our disclosure page on nestle.com](#)

To increase transparency in the food and agriculture sector, Nestlé periodically discloses the result of our supply chain mapping exercise for our 14 key ingredients in scope of our Responsible Sourcing program. Since most of the ingredients and materials we purchase are not segregated, the list of intermediary suppliers represents those that may be present in our supply chain.

Category	Pulp & Paper
Publication Date	July 2025 (2024 traceability) - updated in October 2025
Disclaimer	We aim to share accurate and credible supply chain mapping data. As with any supply chain mapping exercise, this is a snapshot that reflects our mapping efforts during the period described in this disclosure. This snapshot is not a comprehensive depiction of our entire supply chain, rather it corresponds to part of our supply chain for which we have achieved mapping under all five elements below. To the best of our knowledge, the information contained in this list is reliable as of the date of publication. However, we do not assume any liability whatsoever for the accuracy and completeness of the information. Therefore, no rights can be derived from it. Any stakeholder who may have any reliable data that is inconsistent with our own is invited to share it with us, so we can analyze it and make any necessary correction to our disclosure. The mills associated with the companies indicated with an asterisk (*) were declared by our suppliers as part of our supply chain. We have since then requested that these mills (at group level) are not part of our supply chain until remediation plans on certain findings are agreed and implemented. The mill associated with the company indicated with asterisks (**) is part of our supply chain mapping. In 2025, we have requested a significant decrease in volumes from this mill. This decrease is under implementation and the situation is closely monitored.
Scope	This disclosure covers volumes purchased by Nestlé between January 2023 to December 2023 .
