

Pulp and Paper Tier 1 suppliers

Snapshot: December 2022

Published: August 2024

Note: This list represents the most up to date list of suppliers and known mills using data from January 2022 – December 2022. We have gradually been increasing our knowledge of our pulp and paper supply chain which reflects our supply chain-mapping efforts over the last years. The information is provided by our suppliers as self-declaration and should not be taken as fully exhaustive nor fully accurate for showing the current supply chain connections as these can evolve. To the best of our knowledge, the information contained in this list is a reliable for the year 2022; however, we do not assume any liability whatsoever for the accuracy and completeness of this information. Therefore, no rights can be derived from this list.

There is no indication of association between the Tier one suppliers and the mills and in most cases, the Tier 1 suppliers are not mill owners. The mill owner is indicated by the “Pulp Group Name.” The Tier 1 supplier relationship to the mill is through direct or indirect sourcing, except in the cases where the Pulp Group Name is the same as the Tier 1 Company Name.

The mills associated with two companies indicated with an asterisk () were declared by our suppliers in 2022 as part of our supply chain. We have since then requested that these mills (at group level) are not part of our supply chain until remediation plans on certain findings are agreed and implemented.*

We aim to share accurate and credible traceability data. Any stakeholder who may have any reliable data that is inconsistent with our own is invited to share it with us, so we can analyze it and make any necessary correction to our supply chain disclosure.

Group / Parent Company Name of Nestlé Tier 1 supplier	Company Name of Nestlé Tier 1 supplier
818 East Asia Group Corp.	818 East Asia Group Corp.
