D.3	Key risks that are specific to the Notes	<p>There are also risks associated with the Notes including a range of risks relating to the structure of the Notes, market risks and risks relating to Notes generally including that:</p> <p>(i) changes in prevailing market interest rates could affect the value of the Notes which bear interest at a fixed rate;</p> <p>(ii) Notes may be subject to early redemption, which may limit the market value of the Notes and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return;</p> <p>(iii) Bearer Notes in new global note form may not satisfy Eurosystem eligibility criteria;</p> <p>(iv) the Terms and Conditions of the Notes may be modified without the consent of all investors in certain circumstances;</p> <p>(v) the holder of the Notes may not receive payment of the full amounts due in respect of the Notes as a result of amounts being withheld by the Issuer in order to comply with applicable law;</p> <p>(vi) investors are exposed to the risk of changes in law or regulation affecting the value of their Notes;</p> <p>(vii) the value of an investor's investment may be adversely affected by exchange rate movements where the Notes are not denominated in the investor's own currency;</p> <p>(viii) there may be no or only a limited secondary market in the Notes; and</p> <p>(ix) any credit rating assigned to Notes may not adequately reflect all the risks associated with an investment in the Notes.</p>
