#### Section D – Risks

Element	Title	
D.2	<b>Key risks that are specific to the Issuers and the Guarantor</b>	<p>The key risks relating to the Issuer and the Guarantor are set out below:</p> <p>(a) the Group's sales or margins may be materially adversely affected by competition or an inability to respond to rapid changes in consumer preferences;</p> <p>(b) the Group is vulnerable to brand damage which could result in the loss of revenue associated with the affected brands and higher costs to address these circumstances, including those associated with product recall events;</p> <p>(c) accidental or malicious contamination of raw materials or products in the supply chain may result in loss of products, delay in supply, loss of market shares, financial costs and adverse health effects on consumers or loss of reputation;</p> <p>(d) sourcing raw materials globally exposes the Group to price fluctuations and supply uncertainties which are subject to factors such as commodity market price volatility, currency fluctuations, changes in governmental agricultural programs, harvest and weather conditions, crop disease, crop yields, alternative crops and by-product values. Underlying base material price changes may result in unexpected increases in costs of raw material and packaging, and the Group may be unable to fully reflect these increases by raising prices without suffering reduced volume, revenue and operating income;</p> <p>(e) the Group's success depends in part on anticipating the tastes and dietary habits of consumers and to offer products that appeal to their preferences;</p> <p>(f) the food industry including the Group is faced with the global challenge of rapidly rising obesity levels; and</p> <p>(g) the Group issues term debt to raise finance and depends on broad access to capital markets and investors. Changes in demand for term debt instruments on capital markets could limit the ability of the Nestlé Group to fund operations. The Guarantor also depends on the willingness of banks to provide the type of credit lines or loans which are used by the Group.</p>

Element	Title	
		<p>(iv) the holder of the Notes may not receive payment of the full amounts due in respect of the Notes as a result of amounts being withheld by the Issuer in order to comply with applicable law;</p> <p>(v) investors are exposed to the risk of changes in law or regulation affecting the value of their Notes;</p> <p>(vi) the value of an investor's investment may be adversely affected by exchange rate movements where the Notes are not denominated in the investor's own currency;</p> <p>(vii) there may be no or only a limited secondary market in the Notes; and</p> <p>(viii) any credit rating assigned to Notes may not adequately reflect all the risks associated with an investment in the Notes.</p>
