2. Capital structure

2.1 Capital

The ordinary share capital of Nestlé S.A. is CHF 365 000 000. The conditional share capital is CHF 10 000 000. Nestlé S.A. does not have any authorised share capital.

2.2 Conditional capital

The share capital may be increased in an amount not to exceed CHF 10 000 000 by issuing up to 100 000 000 registered shares with a nominal value of CHF 0.10 each through the exercise of conversion rights and/or option rights granted in connection with the issuance by Nestlé or one of its subsidiaries of newly or already issued convertible debentures, debentures with option rights or other financial market instruments. Thus the Board of Directors has at its disposal a flexible instrument enabling it, if necessary, to finance the activities of the Company through convertible debentures.

For a description of the group of beneficiaries and of the terms and conditions of the issue of conditional capital, refer to art. 3^{bis} of the Articles of Association of Nestlé S.A.

2.3 Changes in capital

The share capital was reduced three times in the last three financial years as a consequence of several Share Buy-Back Programmes launched by the Company; the resulting cancellations of shares were approved at the Annual General Meetings of 19 April 2007, 10 April 2008 and 23 April 2009.

In 2007, the share capital was reduced by 7 663 200 shares from CHF 400 735 700 to CHF 393 072 500. In 2008, the share capital was further reduced by 10 072 500 shares to CHF 383 000 000.

Finally, in 2009, the share capital was reduced by 180 000 000 shares to CHF 365 000 000. Additionally, the shareholders gave their assent at the 2008 Annual General Meeting to a 1-for-10 share split and respective increase of the number of shares. As a consequence, the nominal value of the shares was reduced from CHF 1.– to CHF 0.10 on 30 June 2008. For the breakdown of capital ("equity") for 2009, 2008 and 2007 see the changes in equity in the Consolidated Financial Statements of the Nestlé Group 2009 and 2008.

2.4 Shares and participation certificates

Nestlé S.A.'s capital is composed of registered shares only. The number of registered shares with a nominal value of CHF 0.10 each, fully paid up was 3 650 000 000 at 31 December 2009.

Shareholders have the right to receive dividends. There are no participation certificates.

2.5 Profit sharing certificates

There are no profit sharing certificates.

2.6 Limitations on transferability and nominee registrations

2.6.1 Limitations on transferability for each share category, along with an indication of statutory group clauses, if any, and rules for granting exceptions

According to art. 5 par. 5, lit. a of the Articles of Association, no person or entity shall be registered with voting rights for more than 5% of the share capital as recorded in the commercial register. The limitation on registration also applies to persons who hold some or all their shares through nominees pursuant to that article. Legal entities that are linked to one another, through capital, voting rights, management or in any other manner, as well as all natural persons or legal entities achieving an understanding or forming a syndicate or otherwise acting in concert to circumvent the regulations concerning the limitation on registration or the nominees, shall be counted as one person or nominee (art. 5 par. 7 of the Articles of Association). The limitation on registration also applies to shares acquired or subscribed by the exercise of subscription, option or conversion rights (art. 5 par. 10 of the Articles of Association). See also art. 5 par. 6 and 9 of the Articles of Association and point 2.6.3 below.

2.6.2 Reasons for granting exceptions in the year under review

Please refer to points 2.6.3 and 6.1.2 below.

2.6.3 Admissibility of nominee registrations, along with an indication of percent clauses, if any, and registration conditions

Pursuant to art. 5 par. 6 and 9, the Board of Directors has issued regulations concerning nominees, setting forth rules for their entry as shareholders in the share register. These regulations allow the registration of:

- Nominees N (“N” as Name of beneficial owner disclosed): where trading and safekeeping practices make individual registration of beneficial owners difficult or impractical, shareholders may register their holdings through a Nominee N with voting rights, subject to the specific understanding that the identity and holdings of beneficial owners are to be disclosed to the Company, periodically or upon request. Holdings of a Nominee N, or Nominees N acting as an organised group or pursuant to a common agreement, may not otherwise exceed 5% of the share capital of the Company. Holdings exceeding the 5% limit (respectively the limit fixed by the Board of Directors, see 6.1.2) are registered without voting rights.

No person may exercise, directly or indirectly, voting rights, with respect to own shares or shares represented by proxy, in excess of 5% of the share capital as recorded in the commercial register. Legal entities that are linked to one another through capital, voting rights, management or in any other manner, as well as all natural persons or legal entities achieving an understanding or forming a syndicate or otherwise acting in concert to circumvent such a limit shall be counted as one shareholder (art. 11 par. 2 of the Articles of Association; see art. 11 par. 3 of the Articles of Association, which set out exceptions to this voting restriction).

In order to facilitate trading of the shares on the Stock Exchange, the Board of Directors has issued regulations authorising certain nominees to exceed the 5% limit to be registered as nominees with voting rights. The responsibility for disclosure of beneficial owners and their holdings resides with the nominees registered in the share register.

See also art. 11 par. 4 of the Articles of Association.

6.4 Inclusion of item on the agenda

One or more shareholders with voting rights whose combined holdings represent at least 0.15% of the share capital as recorded in the commercial register may request that an item be included in the agenda of the General Meeting by making the request in writing to the Board of Directors at the latest 45

8. Auditors

8.1 Duration of the mandate and term of office of the lead auditor

KPMG Klynveld Peat Marwick Goerdeler S.A. were first appointed on 22 May 1993 as auditors of Nestlé S.A.

On 23 April 2009 at the 142nd Annual General Meeting of Shareholders of Nestlé S.A., KPMG S.A. were appointed as auditors of Nestlé S.A. and of the Consolidated Financial Statements of the Nestlé Group for a term of office of one year.

KPMG S.A. replaced KPMG Klynveld Peat Marwick Goerdeler S.A. This change of auditors occurred for formal reasons: as publicly announced by the KPMG Group, all audit services to publicly-held companies are now provided solely by KPMG S.A. In this Report, KPMG means Klynveld Peat Marwick Goerdeler S.A. or KPMG S.A., unless specified otherwise.

The audit report is signed jointly by two KPMG partners on behalf of KPMG. The first year that Mr Mark Baillache, in his capacity as lead auditor, signed the Financial Statements of Nestlé S.A. and the Consolidated Financial Statements of the Nestlé Group was for the year ending 31 December 2006.

8.2 Auditing fees

The total of the auditing fees paid to the auditors for 2009 amounts to CHF 52 million, of which KPMG, in their capacity as Group auditors, received CHF 49 million.

8.3 Additional fees

The total of the fees paid to the auditors for 2009 related to additional services amounts to CHF 12 million, of which KPMG received CHF 4 million for tax services (CHF 2 million) and other various non-audit services (mainly IS/IT advisory support).

8.4 Supervisory and control instruments pertaining to the audit

KPMG presents to the Audit Committee a detailed report on the conduct of the 2009 financial statements audit, the findings on significant financial accounting and reporting issues together with the findings on the internal control system as well as an overview of issues found during the interim audit.

In 2009, KPMG participated in three Audit Committee meetings at the end of which they met with the Audit Committee without the Group's management being present.

The Group's internal auditors met three times with the Audit Committee. In addition, the head of internal audit regularly met with the Chairman of the Audit Committee for interim updates.

The Audit Committee reviews annually the appropriateness of retaining KPMG as the auditor of the Nestlé Group and Nestlé S.A., prior to proposing to the Annual General Meeting of Nestlé S.A. the election of KPMG as auditors. The Audit Committee assesses the effectiveness of the work of the auditors in accordance with Swiss law, based on their understanding of the Group's business, control, accounting and reporting issues, together with the way in which matters significant at Group level or in the statutory accounts are identified and resolved.

The Audit Committee is also informed on the work of KPMG through regular briefings of its Chairman. The lead auditor is rotated every seven years in accordance with Swiss law. Audit fees are ultimately approved by the Audit Committee.

The Group and KPMG have agreed on clear guidelines as to professional services which it is appropriate for KPMG to provide. These services include due diligence on mergers, acquisitions and disposals and tax and business risk assurance. These

guidelines ensure KPMG's independence in their capacity as auditors to the Group. As a result of Alcon Inc.'s listing on the NYSE, KPMG is required to maintain its independence from the Group in accordance with U.S. standards. KPMG monitors its independence throughout the year and confirms its independence to the Audit Committee annually.

9. Information policy

Investor Relations – guiding principles

Nestlé is committed to managing an open and consistent communication policy with shareholders, potential investors and other interested parties. The objective is to ensure that the perception of those parties about the historical record, current performance and future prospects of Nestlé is in line with management's understanding of the actual situation at Nestlé. The guiding principles of this policy are that Nestlé gives equal treatment to shareholders in equal situations, that any price-sensitive information is published in a timely fashion and that the information is provided in a format that is as full, simple, transparent and consistent as possible.

Methodology

Nestlé produces each year a detailed Annual Report, which reviews the business. It also provides detailed audited financial statements for the year under review, prepared according to the International Financial Reporting Standards (IFRS). This document is complemented by the Half-Yearly Report.

Nestlé publishes its full-year and half-year results, and its first-quarter and nine-months' sales figures; it also publishes press releases at the time of any potentially price-sensitive event, such as significant acquisitions and divestments, joint venture agreements and alliances. Major announcements, such as results of corporate activity, are accompanied by a presentation which is broadcast "live" on the Internet and which anyone can choose to access, whether or not that person is a shareholder.

Furthermore, Nestlé has an active investor relations programme, including both group meetings and one-to-one meetings. This includes the Annual General Meeting, as well as presentations at the time of its full-year and half-year results. The Group also has a programme of roadshows, which take place in most financial centres around the world, and hosts themed events for institutional investors and investment analysts at which members of line management give

an overview of their particular areas of responsibility. These meetings focus either on recently announced financial results, recent corporate activity or the longer-term strategy of the Group; they are not an occasion for the disclosure of new information which might encourage an investment decision.

The Company utilises the World Wide Web (www.nestle.com) to ensure a rapid and equitable distribution of information. Nestlé does not just rely on people visiting the site to be updated on the latest developments within the Group: anyone can sign up on the site to be alerted automatically by Nestlé whenever there is a change to the investor relations Web site; also press releases are distributed to major wire and news services. There are links to non-financial information that may be of interest to investors, including areas such as the environment, sustainability, the Nestlé Corporate Business Principles and the Nestlé Human Resources Policy.

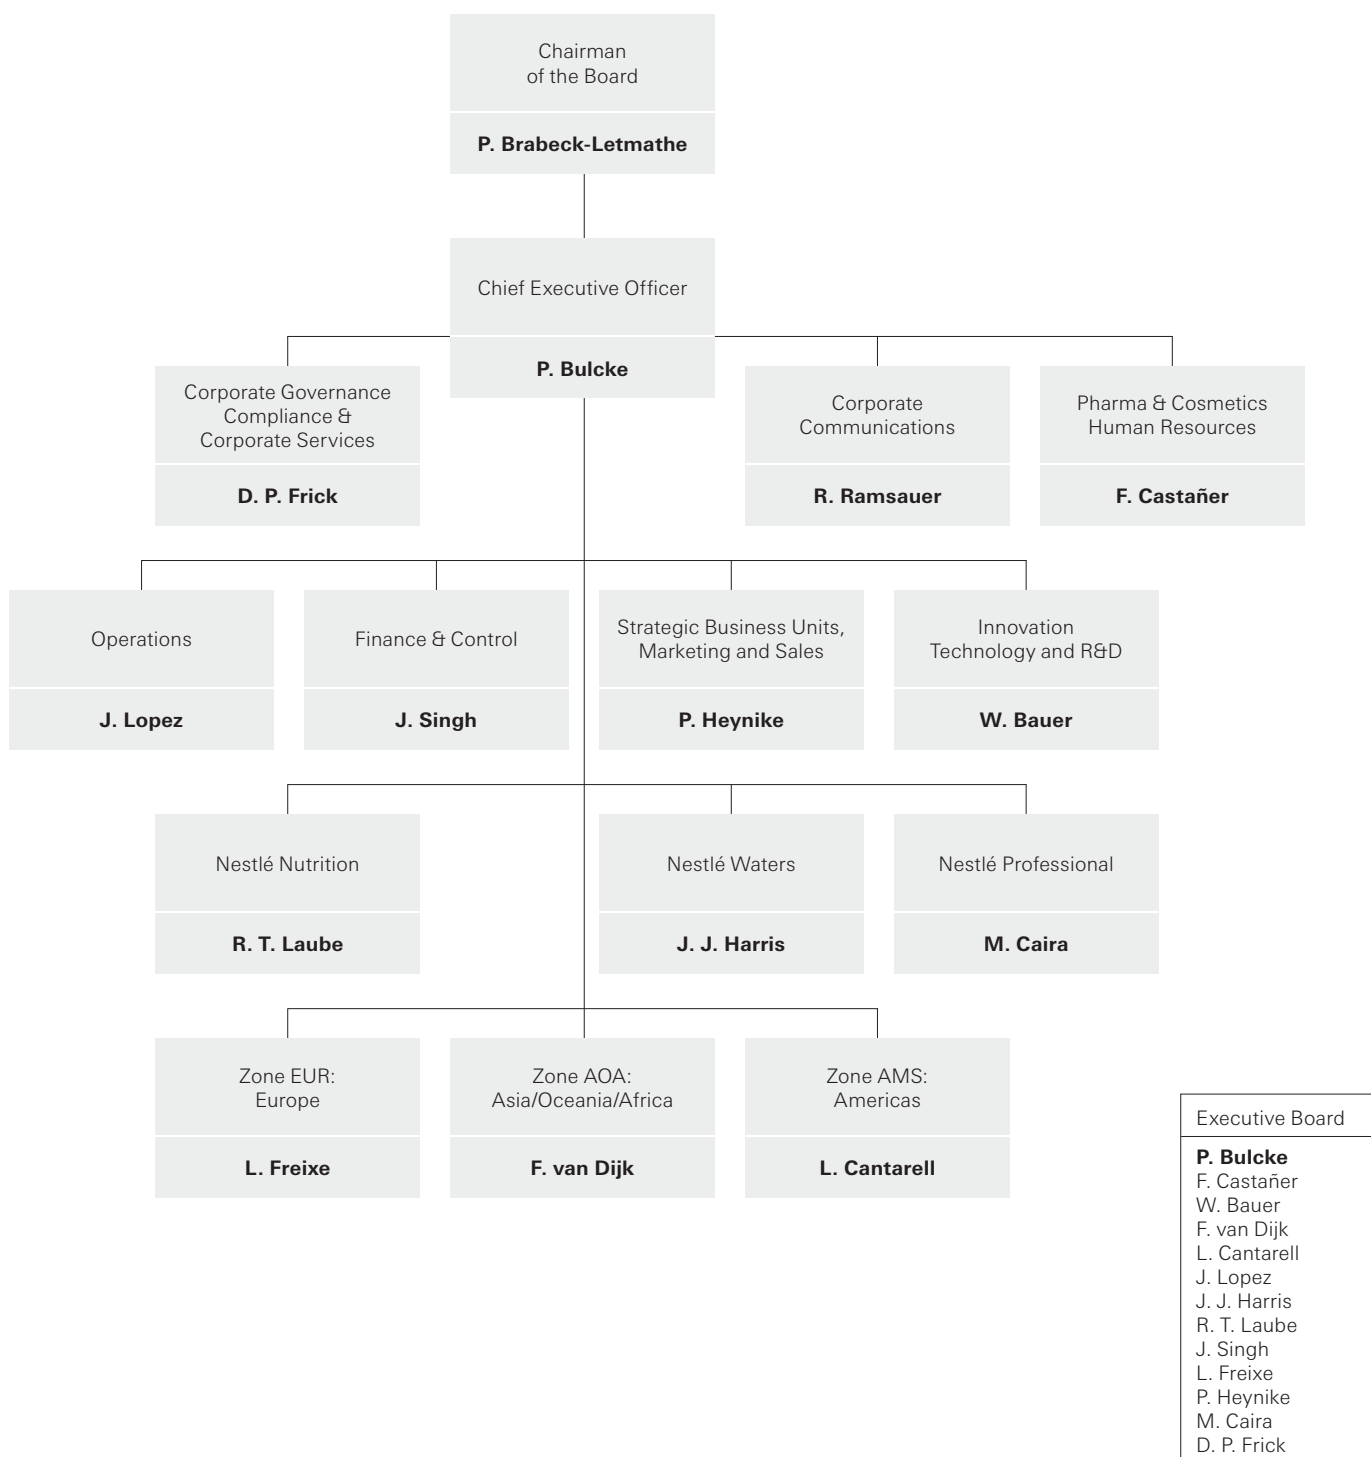

The Nestlé Investor Relations Department can be contacted, either through the Web site, or by telephone, fax, e-mail or letter.

Principles of compensation for members of the Executive Board

Principles

The compensation programmes for members of the Executive Board are based on three major objectives:

Pay for performance

As a direct reflection of this objective, the Total Direct Compensation package for the members of the Executive Board includes a fixed Annual Base Salary and a variable part, which is a combination of a Short-Term (Annual) Bonus and Long-Term Incentives. For the members of the Executive Board, the variable and performance-related part makes up between 50% and 80% of the Total Direct Compensation. The performance criteria and objectives consider performance and the quality and sustainability of such performance as well as risk considerations.

Alignment with long-term company strategy and shareholders' interests

Executive compensation is aligned with company strategy and shareholders' interests. Part or all of any Short-Term Bonus is paid in the form of Nestlé S.A. shares instead of cash. In addition, all Long-Term Incentives are provided in the form of Performance Share Units (PSUs) or options on Nestlé S.A. shares. All share-based elements have restriction periods of three years. This way of compensating reflects a balance of annual and Long-Term Incentives and underlines the close linkage between the interests of the members of the Executive Board and the shareholders.

Compensation to be internationally competitive

To ensure that the remuneration of the members of the Executive Board are internationally competitive, the CC is using the following benchmarks:

- Dow Jones Stoxx 50 companies (without financial industry companies): this is our primary benchmark and includes the largest European companies which are of a size comparable to Nestlé;
- European Fast Moving Consumer Goods companies: this is a secondary benchmark and includes large and medium sized European companies which are operating in the same industry sector as Nestlé;
- Swiss Market Index (SMI) as another secondary benchmark and includes industrial companies which are headquartered in Switzerland and represent Swiss remuneration practices.

Nestlé targets its remuneration to be between the median and the 75th percentile of the benchmark. Whenever

appropriate, the benchmark values are adjusted for the size of Nestlé.

Periodically, Nestlé uses the services of Towers Perrin, a reputed international compensation consultancy, to provide a detailed market comparison. The results of this study confirmed that Total Direct Compensation is broadly in line with the market median, adjusted for the size of Nestlé.

Elements of Executive Board Compensation

The total compensation package consists of the following elements:

1. Annual Base Salary

The Annual Base Salary is the foundation of the total compensation. It also serves as the basis for determining the second element, the Short-Term Bonus, and the third element, the Long-Term Incentives. It is reviewed annually by the CC based upon the individual contribution and with the objective to keep it competitive against our chosen peer groups.

2. Short-Term Bonus

The Short-Term Bonus or annual bonus is expressed as a bonus target, which is a percentage of the Annual Base Salary. The objectives to be reached are set at the beginning of each year; they include collective as well as individual objectives and reflect the Company's strategy. Collective objectives are Nestlé Group operational objectives such as organic growth, real internal growth (RIG), EBIT performance, a certain level of capital expenditure and others. Individual objectives are determined by the CEO for each member of the Executive Board. In case an executive reaches all objectives in full, the bonus payout will correspond to the targeted level. If one or more objectives are not reached, the bonus is reduced. Accordingly, payment reflects the achievement of targets.

For the CEO, 100% of the target is made up by Nestlé Group objectives as described above. For the other members of the Executive Board, 30% of the target is allocated to Nestlé Group objectives and 70% is determined on the basis of individual or other collective objectives (e.g. objectives of the Zone, Globally Managed Business or Function). For competitive reasons Nestlé does not further specify the details of its quantitative objectives.

In 2009, the target Bonus levels have been adjusted to better reflect competitive practice. The new target levels are the following (expressed in % of Annual Base Salary):

- CEO: 200%
- Executive Vice President: 100%
- Deputy Executive Vice President: 80%.

The bonus payout can reach 130% of the target. There is no guarantee for the payout of a minimum bonus.

A minimum of half of the CEO's bonus is payable in the form of Nestlé S.A. shares. Other members of the Executive Board can elect to receive part or all of their bonus in the form Nestlé S.A. shares instead of cash. Nestlé S.A. shares taken instead of cash are subject to a three-year blocking period. For purposes of the conversion of cash into shares, the conversion value of a Nestlé S.A. share is determined as the average closing price of the last ten trading days of January of the year of the payment of the bonus. The value of these shares is determined by taking the conversion value discounted by 16.038% to account for the three-year blocking period.

3. Long-Term Incentives

Members of the Executive Board are eligible to receive Long-Term Incentives in the form of Stock Options under the Management Stock Option Plan (MSOP) and Performance Share Units under the Performance Share Unit Plan (PSUP). The target grant value for Long-Term Incentives is 200% of the Annual Base Salary for the CEO and 100% of the Annual Base Salary for the other members of the Executive Board. One half of the Long-Term Incentives grant is provided in the form of Stock Options and the other half in the form of Performance Share Units.

The **Management Stock Option Plan (MSOP)** provides non-tradable options on Nestlé S.A. shares. Each option gives the right to purchase at the exercise price one Nestlé S.A. share. The exercise price for the Stock Options corresponds to the average Nestlé S.A. share price of the last ten trading days preceding the grant date. The value of an option at grant is determined by applying the Black-Scholes valuation model. The Stock Options vest three years after the grant. Upon vesting, the options have an exercise period of four years before they expire.

The **Performance Share Unit Plan (PSUP)** was introduced at the beginning of 2009 and provides units which entitle participants to receive freely disposable Nestlé S.A. shares at the end of the three-year restriction period.

The value of a PSU under the grant 2009 is determined by the closing price of the Nestlé S.A. share on the trading day preceding the grant date.

The level at which PSUs vest shall be determined by the degree by which the performance measure of the PSUP has been met. The performance measure is the relative Total Shareholder Return of the Nestlé S.A. share compared to the Dow Jones 600 Food & Beverage Index. The range at

which PSUs shall vest is between 50% to 200% of the initial grant, thus introducing additional performance criteria to ensure alignment with strategy and shareholders interests.

The **Restricted Stock Unit Plan (RSUP)** provides units which entitle participants to receive freely disposable Nestlé S.A. shares at the end of the three-year restriction period.

The value of an RSU under the grant 2009 is determined by taking the closing Nestlé S.A. share price on the trading day preceding the grant date.

4. Other benefits

The Company limits other benefits to a minimum. Typical elements are a car allowance (there are no company cars provided to the members of the Executive Board), a contribution towards health insurance premiums as well as long-service awards in line with company policy, as offered to other employees. Those Executive Board members who have been transferred to Switzerland from other Nestlé locations can receive benefits in line with the Nestlé Corporate Expatriation Policy.

5. Pension benefits

Executive Board members domiciled in Switzerland are affiliated to the Nestlé Pension Plan in Switzerland like all other employees. The Plan is designed as a defined contribution plan with a retirement pension objective, expressed as a percentage of the Annual Base Salary.

This means that the pensionable earnings include the Annual Base Salary, but not the variable compensation (Short-Term Bonus or Long-Term Incentives). Any part of the Annual Base Salary which exceeds the ceiling prescribed by the Swiss Pension Law is covered directly by the Company.

Share Ownership Policy

The Company does not have a share ownership policy requiring members of the Executive Board to own Nestlé S.A. shares.

Loans

The Company does not, as a rule, grant loans, except that it may provide advances free of interest and generally repayable over a three-year period to members of the Executive Board who have been transferred to Switzerland from other Nestlé locations in line with the Nestlé Corporate Expatriation Policy.

Contracts of Employment and Severance Payments

Members of the Executive Board are normally subject to a generally applicable notice period of six months. During this time, unless there was termination for cause, entitlement to Annual Base Salary and pro-rated Short-Term Bonus will continue. There are no severance or change of control provisions ("Golden Parachutes").

Benchmarks

2 At General Meetings no person may exercise, directly or indirectly, voting rights, with respect to own shares or shares represented by proxy, in excess of 5% of the share capital as recorded in the commercial register. Legal entities that are linked to one another through capital, voting rights, management or in any other manner, as well as all natural persons or legal entities achieving an understanding or forming a syndicate or otherwise acting in concert to circumvent such a limit, shall be counted as one shareholder.

3 The foregoing limit does not apply to shares received and held by a shareholder pursuant to an acquisition of an enterprise, or parts of an enterprise or participations as referred in art. 5 par. 5.

4 In order to permit the exercise of voting rights in respect of shares deposited with banks, the Board of Directors may by means of regulations or agreements with banks depart from the limit foreseen in this article.

It may also depart from such a limit within the framework of the regulations referred to in art. 5 par. 6 and par. 9.

In addition, this limit shall not apply to the exercise of voting rights pursuant to the statutory rules on institutional shareholder representatives.
