2.2 Conditional capital

The share capital may be increased in an amount not to exceed CHF 10 000 000 by issuing up to 100 000 000 registered shares with a nominal value of CHF 0.10 each through the exercise of conversion rights and/or option rights granted in connection with the issuance by Nestlé or one of its subsidiaries of newly or already issued convertible debentures, debentures with option rights or other financial market instruments. Thus the Board of Directors has at its disposal a flexible instrument enabling it, if necessary, to finance the activities of the Company through convertible debentures.

For a description of the group of beneficiaries and of the terms and conditions of the issuance of conditional capital, refer to art. 3^{bis} of the Articles of Association of Nestlé S.A.

2.3 Changes in capital

The share capital was reduced once in the last three financial years as a consequence of a Share Buy-Back Programme. On 19 April 2012, the Annual General Meeting approved the cancellation of 75 200 000 shares resulting in a reduction of the share capital to the present CHF 322 480 000.

According to art. 5 par. 5 of the Articles of Association, no person or entity shall be registered with voting rights for more than 5% of the share capital as recorded in the commercial register. This limitation on registration also applies to persons who hold some or all their shares through nominees pursuant to that article. Legal entities that are linked to one another, through capital, voting rights, management or in any other manner, as well as all natural persons or legal entities achieving an understanding or forming a syndicate or otherwise acting in concert to circumvent the regulations concerning the limitation on registration or the nominees, shall be counted as one person or nominee (art. 5 par. 7 of the Articles of Association). The limitation on registration also applies to shares acquired or subscribed by the exercise of subscription, option or conversion rights (art. 5 par. 10 of the Articles of Association). See also art. 5 par. 6 and 9 of the Articles of Association and point 2.6.3 below.

The regulations on nominees set forth rules for the entry of nominees as shareholders in the share register. They allow the registration of:

- Nominees N (“N” as Name of beneficial owner disclosed): where trading and safekeeping practices make individual registration of beneficial owners difficult or impractical, shareholders may register their holdings through a Nominee N with voting rights, subject to the specific understanding that the identity and holdings of beneficial owners are to be disclosed to the Company, periodically or upon request. Voting rights of Nominees are to be exercised on the basis of voting instructions received from the beneficial owners. Holdings of a Nominee N, or Nominees N acting as an organised group or pursuant to a common agreement, may not exceed 5% of the share

capital of the Company. Holdings exceeding the 5% limit (respectively the limit fixed by the Board of Directors, see point 6.1.2 below) are registered without voting rights.

The responsibility for disclosure of beneficial owners and their holdings resides with the nominees registered in the share register.

- Nominees A (“A” as Anonymous beneficial owner): registration without voting rights.

In line with its regulations, in order to facilitate trading of the shares on the Stock Exchange, the Board of Directors has authorised certain nominees to exceed the 5% limit to be registered as nominees with voting rights.

8.4 Information instruments pertaining to the external audit

KPMG presents to the Audit Committee a detailed report on the conduct of the Financial Statements audit, the findings on significant financial accounting and reporting issues together with the findings on the internal control system as well as an overview of issues found during the interim audit.

In 2014, KPMG participated in all four Audit Committee meetings at the end of which they met with the Audit Committee without the Group's management being present.

Nestlé Group Audit (corporate internal auditors) met four times with the Audit Committee. In addition, the head of internal audit regularly met with the Chairman of the Audit Committee for interim updates.

The Audit Committee reviews annually the appropriateness of retaining KPMG as the auditor of the Nestlé Group and Nestlé S.A., prior to proposing to the Board and to the Annual General Meeting of Nestlé S.A. the election of KPMG as auditors. The Audit Committee assesses the effectiveness of the work of the auditors in accordance with Swiss law, based on their understanding of the Group's business, control, accounting and reporting issues, together with the way in which matters significant at Group level or in the statutory accounts are identified and resolved.

The Audit Committee is also informed on the work of KPMG through regular briefings of its Chairman. The lead auditor is rotated every seven years in accordance with Swiss law. Audit fees are ultimately approved by the Audit Committee.

The Group and KPMG have agreed on clear guidelines as to audit services which it is appropriate for KPMG to provide. These services include due diligence on mergers, acquisitions and disposals and certain tax and business risk assurance and IS/IT advisory support. These guidelines ensure KPMG's independence in their capacity as auditors to the Group. KPMG monitors its independence throughout the year and confirms its independence to the Audit Committee annually.

Investor Relations – guiding principles

Nestlé is committed to managing an open and consistent communication policy with shareholders, potential investors and other interested parties. The objective is to ensure that the perception of those parties about the historical record, current performance and future prospects of Nestlé is in line with management's understanding of the actual situation at Nestlé. The guiding principles of this policy are that Nestlé gives equal treatment to shareholders in equal situations, that any price-sensitive information is published in a timely fashion and that the information is provided in a format that is as full, simple, transparent and consistent as possible.

Methodology

Nestlé produces each year a detailed Annual Report, which reviews the business. It also provides detailed audited Financial Statements for the year under review, prepared according to the International Financial Reporting Standards (IFRS). These are complemented by the Half-Yearly Report.

Nestlé publishes its full-year and half-year results, and its first-quarter and nine-months' sales figures; it also publishes press releases at the time of any potentially price-sensitive event, such as significant acquisitions and divestments, joint venture agreements and alliances. Major announcements, such as results of corporate activity, are accompanied by a presentation which is broadcast "live" on the Internet and which anyone can choose to access, whether or not that person is a shareholder.

Furthermore, Nestlé has an active investor relations programme, including both group meetings and one-to-one meetings. This includes the Annual General Meeting, as well as presentations at the time of its full-year and half-year results. The Group also has a programme of roadshows, which take place in most financial centres around the world, and hosts themed events for institutional investors and investment analysts at which members of line management give an overview of their particular areas of responsibility. These meetings focus either on recently announced financial results, recent corporate activity or the longer-term strategy of the Group; they are not an occasion for the disclosure of new information which might encourage an investment decision.

Information policy

Specifically on governance topics, the Company engages into an active dialogue with investors through regular Chairman's roundtables, surveys and bilateral exchanges which are reported to the Chairman's and Corporate Governance Committee or the Board.

The Company utilises the World Wide Web (www.nestle.com/investors) to ensure a rapid and equitable distribution of information. Nestlé does not just rely on people visiting the site to be updated on the latest developments within the Group: anyone can sign up on the site to be alerted automatically by Nestlé whenever there is a change to the Investor Relations Web site; also press releases are distributed to major wire and news services. There are links to non-financial information that may be of interest to investors, including areas such as the environment, sustainability, the Nestlé Corporate Business Principles and the Nestlé Human Resources Policy. A Corporate calendar of relevant dates is displayed on page 64 of the Annual Report 2014 and available on the Corporate Web site (www.nestle.com/investors/events).

Compensation Report 2014

Introduction

The future success of Nestlé is dependent on its ability to attract, motivate and retain the right talented employees. Among the various programmes to support this ambition is a competitive remuneration policy. Nestlé believes in a performance culture as well as good corporate governance and corporate social responsibility.

Therefore, remuneration at Nestlé is based on the following principles:

- pay for performance to support the Company's short-term and long-term objectives;
- compensation aligned with long-term Group strategy and shareholders' interests;
- coherence in our remuneration plans and levels throughout the Company;
- competitiveness versus external market comparisons;
- appropriate balance of fixed and variable remuneration and short-term and long-term rewards.

As in previous years, this Compensation Report shall be submitted to the advisory vote of the shareholders at the next Annual General Meeting.

Changes to the compensation system

The Compensation Committee has decided on the following material changes to our compensation system for 2015:

At the end of the three-year vesting period of the Performance Share Unit Plan (PSUP), Nestlé S.A. shares delivered to members of Nestlé's Executive Board will be subject to an additional two-year blocking period. With this modification, Nestlé S.A. shares granted in relation with the PSUP will become freely disposable for members of the Executive Board only five years after the PSU grant date.

In order to reinforce the focus on key business metrics, the Short-Term Bonus structure for members of the Executive Board will be amended to ensure that a minimum of 50% is tied to business performance. This will further strengthen accountability for Nestlé's results.

Furthermore, the payout levels for the Short-Term Bonus and the Performance Share Units are now disclosed in the Compensation Report, both for the Executive Board as a whole and for the CEO.

Governance

The Board of Directors has the overall responsibility for defining the compensation principles used in the Group. It approves the compensation of the members of the Board, its Chairman, the CEO and the Executive Board as a whole. As from the Annual General Meeting 2015, and pursuant to art. 21^{bis} of Nestlé's Articles of Association, the total compensation of the Board of Directors and of the Executive Board will be subject to approval by the shareholders.

As of 31 December 2014, the governance for setting the compensation of the members of the Board of Directors and the Executive Board is defined as follows:

Compensation of	Recommended by	Approved by
Chairman of the Board, CEO and Executive Board as a whole	Compensation Committee	Board of Directors ^(a)
Non-executive members of the Board of Directors	Compensation Committee	Board of Directors ^(b)
Members of the Executive Board	CEO together with Chairman	Compensation Committee

(a) Chairman as well as CEO not voting on own compensation.

(b) Members not voting on own compensation to the extent that Committee fees are concerned.

Compensation Committee (CC)

The CC is governed by the Compensation Committee Charter. The Committee consists of the Chairperson who is an independent and non-executive member of the Board, one of the Vice Chairmen of the Board and two other non-executive members of the Board.

The members of the CC have been elected by the shareholders for one year. The Chairperson was appointed by the Board of Directors. On 31 December 2014, the composition of the CC was as follows:

Chairman	Members
Beat Hess	Andreas Koopmann
	Daniel Borel
	Jean-Pierre Roth

Board of Directors

Principles of compensation for the members of the Board of Directors

Governance

Pursuant to art. 21^{bis} par. 1 of Nestlé's Articles of Association, the General Meeting shall approve annually the proposal of the Board of Directors in relation to the maximum aggregate amount of the compensation of the Board of Directors for the period until the next Annual General Meeting ^(a).

In the event the General Meeting has not approved a proposal of the Board of Directors, the Board of Directors shall determine the respective maximum aggregate amount or maximum partial amounts of compensation provided that:

- a) the Board of Directors takes into account (i) the proposed maximum aggregate amount of compensation; (ii) the decision of the General Meeting and, to the extent known to the Board of Directors, the main reasons for the negative vote; and (iii) Nestlé's compensation principles; and
- b) the Board of Directors submits the amount so determined to approval by the same General Meeting, a subsequent Extraordinary General Meeting or the next Annual General Meeting (art. 21^{bis} par. 2 of the Articles of Association).

Principles

The remuneration of the members of the Board of Directors is set to attract and retain highly qualified individuals to serve on the Board of Directors. The level of remuneration reflects the time and effort required from the members in fulfilling their Board and Committee responsibilities. The pay structure (cash and blocked shares) is designed to ensure the Board's focus on the long-term success of the Company.

The principal benchmark used to define Board remuneration is a selection of large Swiss Market Index (SMI) companies ^(b), adjusted for the size of Nestlé. These figures are periodically reviewed against this benchmark.

Compensation 2014 for the members of the Board of Directors

Board membership fees and allowances

With the exception of the Chairman and the CEO, each member of the Board of Directors receives a Board membership fee of CHF 280 000 and an Expense Allowance of CHF 15 000. These figures have remained unchanged since 2006.

(a) The Board of Directors may submit for approval by the General Meeting deviating or additional proposals relating to the same or different periods.

(b) Novartis, Roche, Richemont, ABB, Syngenta, UBS and Credit Suisse.

The number of Nestlé S.A. shares is determined by taking the closing price of the share on the SIX Swiss Exchange on the ex-dividend date of the respective financial year, discounted by 16.038% to account for the blocking period of three years. In 2014, the value was CHF 56.21.

Compensation Report 2014

Mr Jean-Pierre Meyers retired from the Board during 2014.

Peter Brabeck-Letmathe, in his capacity as active Chairman, received a cash compensation as well as Nestlé S.A. shares, which are blocked for three years. This in particular reflects certain responsibilities for the direction and control of the Group including the Chairmanship of Nestlé Health Science S.A. as well as Nestlé Skin Health S.A., and the direct leadership of Nestlé's interests in L'Oréal (Vice-Chairman of the Board of Directors) and Laboratoires innéo. He also represents Nestlé at the Foundation Board of the World Economic Forum (WEF) and on behalf of Nestlé chairs the 2030 Water Resource Group (WRG). He is a member of the Hong Kong-Europe Business Council. The remuneration includes all compensation received in relation to these activities. His total compensation was:

The additional cost to the company taking into account full social security employer contributions is CHF 284 178 in 2014 and CHF 319 033 in 2013.

In view of the progressive transfer of responsibilities from the Chairman to the CEO, the Board of Directors has upon proposal by the Compensation Committee approved a further reduction of approximately 10% in the remuneration of the Chairman for 2015.

Executive Board

Principles of compensation for members of the Executive Board

Governance

Pursuant to art. 21^{bis} par. 1 of Nestlé's Articles of Association, the General Meeting shall approve annually the proposal of the Board of Directors in relation to the maximum aggregate amount of the compensation of the Executive Board for the following financial year (*).

In the event the General Meeting has not approved a proposal of the Board of Directors, the Board of Directors shall determine the respective maximum aggregate amount or maximum partial amounts of compensation, provided that:

- a) the Board of Directors takes into account: (i) the proposed maximum aggregate amount of compensation; (ii) the decision of the General Meeting and, to the extent known to the Board of Directors, the main reasons for the negative vote; and (iii) Nestlé's compensation principles; and
- b) the Board of Directors submits the amount(s) so determined to approval by the same General Meeting, a subsequent Extraordinary General Meeting or the next Annual General Meeting (art. 21^{bis} par. 2 of the Articles of Association).

(*) The Board of Directors may submit for approval by the General Meeting deviating or additional proposals relating to the same or different periods.

If the maximum aggregate amount of compensation already approved by the General Meeting is not sufficient to also cover compensation of one or more members who become members of or are being promoted within the Executive Board during a compensation period for which the General Meeting has already approved the compensation of the Executive Board, Nestlé or companies controlled by it shall be authorized to pay such member(s) a supplementary amount during the compensation period(s) already approved. The total supplementary amount shall not exceed 40% of the aggregate amount of compensation of the Executive Board last approved by the General Meeting per compensation period (art. 21^{ter} of the Articles of Association).

Principles

The principles of compensation for members of the Executive Board are the following:

Pay for performance

The Total Direct Compensation for the members of the Executive Board includes a fixed portion (Annual Base Salary) and a variable portion (Short-Term Bonus and Long-Term Incentives). The fixed compensation takes into account individual performance. Variable compensation is determined based on collective and individual performance. These are intended to ensure a major part of executive rewards are contingent on achieving demanding performance goals.

Alignment with long-term company strategy and shareholder interests

Compensation for members of the Executive Board is aligned with company strategy and shareholders' interests. The Short-Term Bonus payout is determined by the degree of achievement of a number of objectives aligned to annual business plans. Long-Term Incentives are provided in the form of share-based instruments, therefore ensuring alignment with shareholders' interests. In 2014, the main Long-Term Incentive instrument was the Performance Share Unit Plan (PSUP), following the discontinuation of the Restricted Stock Unit Plan (RSUP). PSUs have a vesting period of three years and their alignment with shareholder interests is reinforced through pay-outs being tied to underlying Earnings per Share (EPS) growth and relative Total Shareholder Return (TSR) performance. As from 2015, an additional two-year blocking period will be added, bringing the total restriction period to five years.

Compensation to be internationally competitive by using selected benchmarks

The compensation packages for the members of the Executive Board need to be competitive in a dynamic international environment. Nestlé targets its overall remuneration policy to be between the median and the 75th percentile of the selected external benchmarks (please refer to page 39). Whenever appropriate, the benchmark values are adjusted for the size of Nestlé.

Elements of Executive Board compensation

Periodically, the Compensation Committee uses the services of Towers Watson, a reputed international compensation consultancy, to provide a detailed market comparison. The results of a recent study confirmed that Total Direct Compensation is broadly in line with the market median, adjusted for the size of Nestlé.

The total compensation package consists of the following elements:

1. Base Salary

The Base Salary is the foundation of the total compensation. It reflects the experience, expertise and sustained performance of the Executive Board member as well as taking account of external market competitiveness. It also serves as the basis for determining the Short-Term Bonus target levels, and the allocation of Long-Term Incentives. The Base Salary is reviewed annually by the Compensation Committee. Criteria for adjustments are individual contribution and the level of competitiveness against the benchmarks.

2. Short-Term Bonus

The Short-Term Bonus is intended to reward results achieved against annual collective and individual performance goals related to Nestlé's overall business strategy. The Short-Term Bonus is paid in cash and/or in Nestlé S.A. shares, which are subject to a 3-year blocking period.

Governance

Pursuant to art. 21^{quater} of Nestlé's Articles of Association, variable compensation may comprise short-term compensation elements, and shall be subject to caps expressed as pre-determined multipliers of the respective target levels.

Short-term compensation elements are governed by performance metrics that take into account the performance of Nestlé and/or parts thereof, targets in relation to the market, to other companies or to comparable benchmarks and/or individual targets, and achievement of which is generally measured based on a one-year period. The annual target level of the short-term compensation elements is determined as a percentage of the base salary; depending on achieved performance, the compensation may amount up to a pre-determined multiplier of target level (art. 21^{quater} of the Articles of Association).

The Board of Directors, or to the extent delegated to it, the Compensation Committee determines performance metrics and target levels, and their achievement.

Target levels 2014

The Short-Term Bonus (Annual Bonus) is based on a bonus target expressed in % of the Annual Base Salary.

In 2014, the following target levels were applicable

- CEO: 150%;
- Executive Vice President: 100%;
- Deputy Executive Vice President: 80%.

For the CEO, 100% of the target was linked to the Nestlé Group performance. For the other members of the Executive Board, 30% of the target was linked to the Nestlé Group performance and 70% was linked to individual performance (quantitative and qualitative objectives) as well as other relevant business or functional performance. In case an executive reaches all objectives in full, the bonus payout will correspond to the targeted level. If one or more objectives are not reached, the bonus is reduced. The bonus payout is capped at a maximum of 130% of the target. There is no guarantee for the payout of a minimum bonus.

On proposal by the Chairman and the CEO and as approved by the Compensation Committee, the objectives are set at the beginning of each year, in line with the Company's strategy. The Nestlé Group performance is determined by measurable operational objectives, most importantly organic growth, real internal growth, operating profit, as well as market share and cash flow generation. Additional objectives used to evaluate the Nestlé Group performance are related to the Nestlé strategic roadmap. Individual objectives are determined by the CEO for each member of the Executive Board. They are related to the

individual area of responsibility and can be of financial or non-financial nature.

Members of the Executive Board can elect to receive part or all of their Short-Term Bonus in Nestlé S.A. shares. The CEO has to take a minimum of 50% in shares.

3. Long-Term Incentives

Long-Term Incentives are intended to reward sustained business success and overall shareholder value creation as well as to retain key senior management members.

Governance

Pursuant to art. 21^{quater} of Nestlé's Articles of Association, variable compensation may comprise long-term compensation elements, and shall be subject to caps expressed as pre-determined multipliers of the respective target levels.

Long-term compensation elements are governed by performance metrics that take into account strategic objectives of Nestlé, and achievement of which is generally measured based on a multi-annual period. The annual target level of the long-term compensation elements is determined as a percentage of the base salary; depending on the achieved performance, the compensation may amount up to a pre-determined multiplier of the target level. Vesting periods, as determined by the Board of Directors or, to the extent delegated to it, the Compensation Committee shall be at least three years. See further art. 21^{quater} par. 6 to 8 of the Articles of Association.

The Board of Directors, or to the extent delegated to it, the Compensation Committee determines performance metrics and target levels, and their achievement.

Target levels 2014

In 2014, members of Nestlé's Executive Board were eligible to receive Long-Term Incentives in the form of Performance Share Units under the Performance Share Unit Plan (PSUP). The target grant value for Long-Term Incentives in 2014 was the following

- CEO: 150% of the Annual Base Salary
- Executive Vice President and Deputy Executive Vice President: 100% of the Annual Base Salary

The fair value of Long-Term Incentives at grant is determined by using generally accepted pricing models.

Please refer to the explanations on page 40.

The **Performance Share Unit Plan (PSUP)** provides units which entitle participants to receive Nestlé S.A. shares at the end of the three-year vesting period. As from 2015, these shares remain blocked for a further period of two years for Executive Board members.

The level at which PSUs vest is determined by the degree by which the two performance measures of the PSUP are met over the full three-year vesting period. These two criteria are:

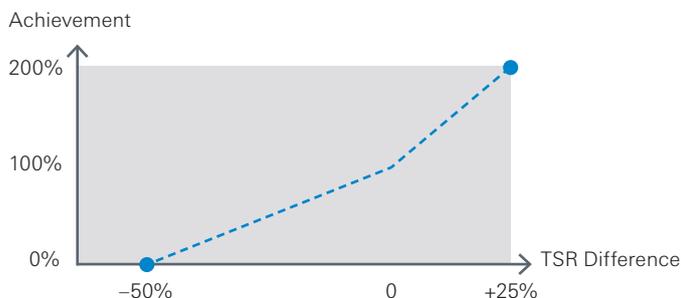

- the relative Total Shareholder Return (TSR) of the Nestlé S.A. share in relation to the STOXX Europe 600 Food & Beverage Net Return Index (as from 2014 the STOXX Global 1800 Food & Beverage Net Return Index); and
- the growth of underlying Earnings per Share in constant currencies.

Total Shareholder Return performance in relation to peers and growth of underlying Earnings per share are the two most commonly used measures to determine senior management long-term performance in the industry. Nestlé considers that these two metrics together reflect a rounded view of the company's performance over a multi-annual period.

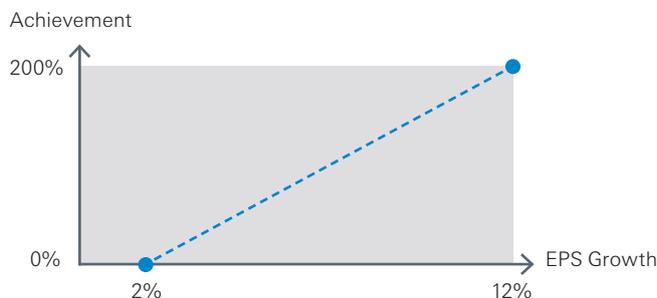

Each of the two measures has equal weighting in determining the vesting level of the initial PSU award.

The following charts show the different potential levels of achievement for each of the two measures for the 2014 PSUP grant.

TSR Difference (Nestlé vs. Index)

Average Underlying EPS Growth (constant currencies)

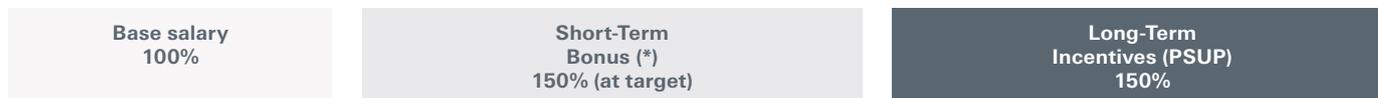

The total vesting level will be determined by applying, at the end of the vesting period, each one of the two measures to 50% of the grant, and by adding up both elements.

The vesting range of the PSU starts at 0% and is capped at 200% of the initial PSU award, thus providing alignment with strategy and shareholders' interests.

The following chart summarizes the Executive Board compensation.

Maximum pay-out:

- Short-Term Bonus: capped at 130% of the target;
- PSUP: vesting ranges from 0% to 200% of the initial PSU award.

4. Other benefits

The Company limits other benefits to a minimum. Typical elements are a car allowance (there are no Company cars provided to members of the Executive Board), a contribution towards health insurance premiums (below CHF 4000 per annum) as well as long-term service awards related to the 25 and 40 years of service to the Company, in line with the Company policy, as offered to other employees. Those Executive Board members who have been transferred to Switzerland from other Nestlé locations can receive benefits in line with the Nestlé Corporate Expatriation Policy.

5. Pension benefits

Executive Board members domiciled in Switzerland are affiliated to the Nestlé Pension Plan in Switzerland like all other employees. The Plan was changed from a defined contribution plan with a retirement pension objective to a Swiss-type defined contribution plan during 2013. Beneficiaries of the Plan born in 1958 or before maintain their membership in the former plan.

Pensionable earnings include the Annual Base Salary, but not the variable compensation (Short-Term Bonus or Long-Term Incentives). Any part of the Annual Base Salary which exceeds the ceiling prescribed by Swiss Pension Law is covered directly by the Company.

Benchmarks of Executive Board compensation

The Compensation Committee has decided to use the STOXX Europe 50 index (without financial industry companies) as the primary benchmark (*), while taking account of trends in executive remuneration in the European Fast Moving Consumer Goods sector as well as more generally in major Swiss listed companies.

Share ownership policy

The Company encourages share ownership by the members of the Executive Board to ensure alignment with shareholder interests over time. As of the end of 2014, excluding unvested long-term incentive awards, the collective share ownership of the members of the Executive Board was equal to approximately twice their combined annual total compensation.

As from 2015, an additional two-year blocking period will be imposed on Nestlé S.A. shares delivered to Executive Board members upon vesting of PSUs, bringing the total restriction period to five years.

Loans

The Company does not, as a rule, grant loans, except that it may provide advances, generally repayable over a three-year period to members of the Executive Board who have been transferred to Switzerland from other Nestlé locations in line with the Nestlé Corporate Expatriation Policy.

Loans to Executive Board members may only be granted at market conditions and may, at the time of grant, not exceed the respective member's most recent total annual compensation (art. 21^{septies} of the Articles of Association).

Contracts of employment and severance payments

As of 31 December 2014, members of the Executive Board are subject to a notice period of 12 months. During this time, unless there was termination for cause, entitlement to the Annual Base Salary and pro-rated Short-Term Bonus continues. Long-Term Incentives are forfeited upon voluntary resignation or termination for cause (except vested Stock Options which remain exercisable for a period of thirty days upon termination for cause); Long-Term Incentives (except Stock Options) immediately vest in all other cases of termination of employment. There are no severance payments or change of control provisions ("golden parachutes").

Explanations

- On 31 December 2014, the Executive Board consisted of 14 members.
- Mr Heiko Schipper was appointed member of the Executive Board on 1 October 2014.
- Other benefits include a car allowance, contribution towards health insurance premiums, long-term service awards and expatriate benefits.
- Nestlé S.A. shares received as part of the Short-Term Bonus are valued at the average closing price of the last ten trading days of January 2015, discounted by 16.038% to account for the three-year blocking period.
- Performance Share Units granted in 2014 are disclosed at fair value at grant, which corresponds to CHF 63.70. The fair value is determined using a valuation model which reflects the probability of overachievement or underachievement on the Total Shareholder Return measure, which is a market condition, and based on five-year historical data. The other inputs incorporated into the valuation model comprise the market price of Nestlé S.A. shares at grant date, discounted at a risk-free interest rate

and adjusted for the dividends that participants are not entitled to receive during the vesting period of three years.

- The values in the table above differ in some respect from the compensation disclosure in Note 20.1 of the consolidated Financial Statements of the Nestlé Group 2014, which have been prepared in accordance with International Financial Reporting Standards (IFRS). The differences relate to the timing of valuation of Performance Share Units, whose values are spread over three years under IFRS but reported fully at the grant date in this report, and to the valuation of blocked shares, which are not subject to a discount for the blocking period under IFRS.

Pay-out levels

- The Short-Term Bonus pay-out for the Executive Board was 102% in 2014, based on the achievement of the relevant Group and individual quantitative and qualitative objectives (2013: 97%).
- The Performance Share Units granted in 2012 vest in March 2015 with a pay-out of 105% of the initial PSU award (PSUs granted in 2011 vested in 2014 with a pay-out of 70%).

Article 21^{quater}

General Compensation Principles

- 1 Compensation of the non-executive members of the Board of Directors comprises fixed compensation elements only.

Fixed compensation comprises the base salary and may comprise other compensation elements and benefits. Variable compensation may comprise short-term and long-term compensation elements, and shall be subject to caps expressed as predetermined multipliers of the respective target levels.
- 3 Short-term compensation elements are governed by performance metrics that take into account the performance of Nestlé and/or parts thereof, targets in relation to the market, to other companies or to comparable benchmarks and/or individual targets, and achievement of which is generally measured based on a one-year period. The annual target level of the short-term compensation elements is determined as a percentage of the base salary; depending on achieved performance, the compensation may amount up to a pre-determined multiplier of target level.
- 4 Long-term compensation elements are governed by performance metrics that take into account strategic objectives of Nestlé, and achievement of which is generally measured based on a multiannual period. The annual target level of the long-term compensation elements is determined as a percentage of the base salary; depending on achieved performance, the compensation may amount up to a pre-determined multiplier of target level. Vesting periods, as determined by the Board of Directors or, to the extent delegated to it, the Compensation Committee, shall be at least three years.

- 5 The Board of Directors or, to the extent delegated to it, the Compensation Committee determines performance metrics and target levels, and their achievement.
- 6 Compensation may be paid or granted in the form of cash, shares, other benefits or in kind; compensation to members of the Executive Board may also be paid or granted in the form of financial instruments or similar units. The Board of Directors or, to the extent delegated to it, the Compensation Committee determines grant, vesting, blocking, exercise and forfeiture conditions; they may provide for continuation, acceleration or removal of vesting and exercise conditions, for payment or grant of compensation assuming target achievement or for forfeiture in the event of pre-determined events such as a termination of an employment or mandate agreement.
- 7 Compensation may be paid by Nestlé or companies controlled by it.
- 8 The Board of Directors values compensation according to the principles that apply to the compensation report.
